Navy Reserve

June 2008

FY08 Endstrength: 67,800 **Onboard: 70,000+**
Mobilized: 4,900+ **FTS: 12,000+**
Mobilized since 9/11/01: 50,000+ **SELRES: 58,000+**

This month, 18,000+ Reserve Sailors, or 26% of the Navy's RC, are providing global operational support.

Mission

The Navy Reserve provides integrated operational support to Fleet, Combatant Commands, the Navy-Marine Corps team, and other Department of Defense (DoD) agencies by delivering mission-ready Sailors and/or hardware to accomplish work that is predictable and periodic across the full range of operations from peace to war.

Vision

"Support to the Fleet… *Ready and Fully Integrated*"

- **Support to the Fleet:** We provide integrated, effective war fighting capability that reflects the true needs of the Fleet, Combatant Commands, Navy-Marine Corps team and other DoD agencies. Reservists now 'drill' primarily with their supported commands and have access to the most modern Fleet equipment. Many Reservists provide operational support in excess of one weekend per month and two weeks of AT, performing relevant Navy work and providing capabilities that are in short supply or nonexistent in the Active Component (AC).

- **Ready:** Maintaining our medical, physical, family and administrative readiness ensures we are a ready, responsive and relevant Force. We provide ready naval forces and personnel for joint force commanders, sustain forward presence, fulfill commitments to allies, and respond to increasing demands in regions where we have not routinely operated.

- **Fully integrated:** We are aligned as a Total Navy Force. Commander, Navy Reserve Forces Command (CNRFC) is aligned with U.S. Fleet Forces (USFF) in Norfolk for Navy requirements while Navy Region Reserve Component Commands are aligned with their co-located Regional Commands. We complement Navy's Manpower, Personnel, Training and Education (MPTE) Enterprise mission, which is to anticipate Navy war fighting needs; identify associated personnel capabilities and recruit, develop, manage and deploy those capabilities in an agile, cost-effective manner. Finally, the Ronald Reagan National Defense Authorization Act of 2005 authorized the Secretary of the Navy to change our name from "Naval" to "Navy" Reserve, further reflecting our partnership in the Total Navy Force.
